A wonderful rare Park Ward S1 continental Coupe in gorgeous order throughout.

This car has been in long-term ownership in Denmark where it has been maintained without regard to expense, being used for high days & holidays in the summer months only.

The engine has just been fully rebuilt at a cost of some £40,000 with lightweight balanced pistons etc so the car is perfect condition for the future.

The car has a very original feel to the interior with lightly patinated leather. The woodwork is all in good order & original also. The exterior is silver grey metallic paintwork & again presents very well. ON the road the car drives beautifully & exactly as one might expect from one of these; A smooth silent engine allied to imperceptible gear changes. The indicated mileage is 81,000.

The car is in stock with us now & ready for immediate viewings.
