Price: £100,000

VEHICLE DETAILS

ADDITIONAL INFORMATION / SERVICE HISTORY

1931 Rolls Royce Phantom 2 Hooper Sedan De Ville.

Chassis number: 90GY

Registration number: DOM111

A very fine & rakish Phantom 2 built by Hooper, "The King of Coachbuilders." This car has been owned for several decades by the current owner who is now in his 90th year & feels it is time to release the car to a new owner. During his tenure the car has covered less than 1000 miles per year as evidenced by an unbroken run of MOT certificates & service bills.

The car has been maintained without regard to cost by Marque Specialists Ristes of Nottingham. We would encourage any potential buyers to contact Steve Lovatt at Ristes for a reference on the car & the super condition it is in. The engine is powerful, silent & everything a Phantom 2 ought to be. It drives superbly & is a real pleasure to take down the road.

The coachwork takes the form of a Sedan De Ville with a very low rakish letter box style front window. The car was the 1931 Olympia Motor Show car according to a brochure copy with the car & was priced at a then princely £3054.00

The car has had a very high quality repaint in its original colours of ivory & black, with the paint being unblemished & perfect. To the interior the car is also as specified when new: Black Leather to the front & black wool cloth to the rear. A silver grey headlining completes the ensemble. Some of the small tools are present under the front seats. A large modern jack is stowed in the capacious rear luggage trunk. The car also has useful storage bins located in the running boards.

This Rolls Royce Phantom 2 has had monet lavished upon it without regards to expense & is consequently in way above average condition both from a mechanical & a cosmetic standpoint. Viewing & a test drive are sterongly encouraged.
