VEHICLE DETAILS

ADDITIONAL INFORMATION / SERVICE HISTORY

2010 Rolls Royce Phantom EWB With every option.

Vin Number: SCA681L00AUH08225

Registration Number: LJ10CCD

The best of the best; Of the 75 or so EWB phantoms supplied in the UK this one probably had the highest specification with every option box ticked along with other custom ordered features. The car cost new just shy of half a million pounds. Since then it has covered under 6000 miles from new.

The car is finished in unmarked pristine ice blue over velvet blue. To the interior is cornsilk leather with navy blue carpets & beautiful burr walnut including the steering wheel inserts. The car comes with a separate remote control to start the car at the touch of a button heating or cooling the interior prior to departure. Both front & rear cameras are fitted for ease of manouvering.

The car sits on unmarked 21" alloy wheels & has a gold plated spirit of ecstasy. Burr Walnut picnic tables are also installed out of which the rear entertainment screens fold. One has to rear the order specifications to appreciate just how much effort went into the build of this car. The rear is configured with individual seats for the rear occupants comfort.

The car was ordered for an international businessman who was chauffeur driven in it on his visits to the UK. The car is fitted with every option to the rear including fully automated heated rear seats, full rear entertainment, a champagne fridge with flutes & a cocktail cabinet with crystal glass decanters. Rear privacy curtains are also installed along with the famed starlight headlining.

Despite its low mileage this car has been Rolls Royce serviced from new & properly looked after. I do not think there is a finer equipped Extended Wheel Base version out there with this low mileage.
