VEHICLE DETAILS

ADDITIONAL INFORMATION / SERVICE HISTORY

2017 Range Rover Long Wheel Base Autobiography

Vin Number: SALGA3EJ9HA340860

Registration Number: R25LAX

Lady owned & coming to us with full service history right up to date. The car has now covered 61000 miles from new and is to be sold freshly serviced in January of 2024 by Main dealer Range rover of Northampton.

Simply put this is the highest spec Range Rover we have ever had with seemingly every option checked on the order sheet & costing a kings ransom when new. The car comes with an unused electronically deployable tow bar, electric rear window privacy blinds, adaptive cruise control, electric heated & cooled front & rear seats, full panoramic opening sunroof, etc etc etc. The full spec is far to copious to list in full but may be seen in one of the pictures of the car.

The interior is beautiful & absolutley unmarked special order tan leather with ebony secondary hides extending also to the roof interior. Striped Macassar ebony woodwork is fitted to the console & door tops making for a striking yet opulent contrast. The exterior paint is Scotia Grey & again is absolutely pristine & blemish free. Being a rare LWB model there are acres of room to the rear making it a very

very comfortable place to be indeed.

A full set of new tyres was fitted not so long ago which are on unmarked diamond cut alloy wheels. Front & rear rubber floor mats also come with the car. All original books papers & a full set of keys come with the car. There are also rear entertainment screens along with Land Rover supplied headphones.

As a whole the car is in pristine & like new condition having been always garaged from new. It has a massive specification a perfect history & frankly we have not had a better one. There are plenty of range rovers out there to choose from but long wheel base examples are very few & far between, let alone with this amazing specification.
