Price: £72,000

VEHICLE DETAILS

ADDITIONAL INFORMATION / SERVICE HISTORY

1958 Rolls-Royce Silver Cloud 1 LWB

Chassis number: BLC7

Registration Number: 877CGD06 (swiss)

Kept in underground parking & Chauffeur driven in Switzerland for the last few decades. This car was purchased as a very low mile example in the 1970's from noted dealers Frank Dale & Stepsons. A chauffeurs clock was then fitted to the car under the bonnet which now reads a mere 52,000 KMS with details records showing the incrementaql mileage in the chauffeurs log book. The dash board odometer shows the car to have covered just 68,000 KMS from new.

This is a very original car properly maintained & in wonderful running condition. It is of course the rare Long Wheel Base version with acres of room in the rear & a division bulkhead with spectacular burr walnut & twin picnic tables. The cream leather is original to the car and in very nice condition as is the headlining. The woodwork was recently removed & refinished to a factoy new condition & then re-installed.

The car is finished in traditional Masons black which suits it very well. It is a

pleasure to drive with an uncannily silent smooth engine & undulating ride quality.
It is a car exuding gravitas & well suited to being driven in but is equally comfortable as an owner driver car. Aftermarket light Power steering has been installed on the car making it very easy to manoeuvre in tight parking lots.

In stock now with us, it is ready for immediate viewings.
