ADDITIONAL INFORMATION / SERVICE HISTORY

1979 Jaguar SS100 by Suffolk Engineering For Sale

Vin Number: JAALP3CC302596

Registration Number: FEW938V

Just 2500 miles covered since being built a gentleman called mr Brian Groves with a kit from Suffolk Sports cars who kindly notes: "I put on the stainless steel exhaust system after I built the car as standard. I put in the petrol injection system and I put in the security system. I installed the disk brakes and everything else on the car including the badge holder and badges. I also installed a new petrol tank."

This SS100 has 4.2 litre fuel injected Jaguar power & needless to say has more than ample performance. Suffolk Sports Cars rebuilt the engine ancillaries included starter motor, alternator, distributor, water pump and a twin pipe stainless steel exhaust system being fitted. Also fitted were disc brakes, all as new, with adjustable shock absorbers on a six coil-spring suspension system, rack and pinion steering before finishing off with a louvered alloy bonnet.

The car is presented in pristine old English white paintwork with deep red hides to the seats. Anodized red wire wheels shod with new Blockley tyres complete the

ensemble. The car comes with full weather equipment, suffolk's own owners manual & full wether gear. There is also a bespoke touring luggage case to strap to the rear luggage rack.
