Not with car.

Price: £45,000

### VEHICLE DETAILS

ADDITIONAL INFORMATION / SERVICE HISTORY

2001 Rolls Royce Silver Seraph LWB

Vin Number: SCALD612 YCH07507

Registration Number: B19RPJ Not with car.

A very rare car being one of 127 Long Wheel Base Park Ward examples. These cars were produced without regard to cost & come with numerous options not found on the standard cars. The interiors have lashings of extra burr walnut woodwork including in the door panels. The rear seats are electrically adjustable with their own separate controls located in the centre of the rear seat area.

This car is finished in very dark metallic blue which appears as black in evening light. The paintwork is in really fine order throughout. To the interior is unmarked tan leather which again is a credit to its former keepers. The car has just turned 92,000 miles & comes with a thick file of bills for recent servicing attesting to the care it has received. As a result the car drives superbly & feels like it is not far off new.

The 5.4 litre BMW sourced V12 is a paragon of smoothness & reliability. The BMW engine management system ensures a perfect fuel burn with the twin exhausts always appearing a perfect grey rather than black.

The car sits on chrome wheels shod with excellent tyres all round. The personal number plate currently on the car is being retained by the current owner.

Little more need be said of the car as the pictures and history speak for themselves. It runs beautifully & provides an opulent driving experience.
