Price: SOLD

VEHICLE DETAILS

ADDITIONAL INFORMATION / SERVICE HISTORY

1974 Honda CB750 Four K2

Registration Number: FRN423M

A beautifully presented example of Honda's seminal & ground breaking machine.

This example is finished in unmarked candy ruby red & has covered just 18,000 miles from new.

This Motorcycle is in simply superb condition garged from new & not having seen rain or winter conditions. It comes to us from a collection of equally pristine Motorcycles & cars.

The engine fires up instantly once fuel is turned on & the choke lever employed. It settles down to an even idle & is simply a pleasure to ride. The gear box is smooth & super easy to use in the usual Honda fashion. The engine pulls strongly in all gears providing spirited performance for a motorcycle of that era.

The motorcycle represents classic Japanese riding at its finest & is really in amazing time warp preserved conditon. Not having ridden one of these before I was amzed

at how easy it is to ride, being very user friendly & with great nimble handling. The combination of the 4 cylinder SOHC in line engine & front Disc brake, a first on a production bike sounded the death knell for the British motorcycle industry at the time & riding one of these up against contemporary other manufacturers offerings can make you see why.
