ADDITIONAL INFORMATION / SERVICE HISTORY

1934 ROLLS ROYCE 20/25 H.J. MULLINER SPORTS SALOON

Chassis number: GFE16

Registration Number: WS2765

£100,000 Plus has been spent upon this car in recent years by the current owner with noted marque specialists A & S Engineering of Alton Hants; A company world renowned for the excellence of their work on pre war Rolls Royce cars.

Literally everything that can be done has been done to the car including a full engine rebuild, new cylinder head, new clutch & rebuilt king pins & running gear etc etc etc. A full rewire was also undertaken. All large tools are found in their appointed places under the bonnet.

As a result we have a car with a silent engine that starts instantly & runs impeccably. One has to experience driving this car to appreciate the quality of it compared to a sloppy & tired example full of shakes & rattles.

The car is finished in lovely dark red over black with the paint in excellent order. To

the interior is patterned cloth fabric front & rear again in super order & very comfortable to sit in. A very large sunroof slides easily open for summer motoring. Being a non divison car it is well suited to the owner driver with masses of room up front as well as in the rear. Painted Ace wheel discs are fitted all round.

A massive history file comes with the car attesting to the works done to it. There is also a delightful period motoring map of the UK encased in a patinted old leather case & also the cars original hand book. The car belongs to a titled gentleman & may be viewed by prior appointment near to Alresford in Hampshire.

The massive expenditure on this car means nothing whatsoever will need doing in the near futre with long term trouble free motoring assured. The quality of this 20/25 speaks for itself.
