VEHICLE DETAILS

ADDITIONAL INFORMATION / SERVICE HISTORY

1933 Rolls Royce Phantom 2 Henley Roadster LHD

Chassis number: 219AMS

Registration Number: TBA

A painstaking restoration of this rare Left Hand Drive Phantom 2. This car started life as a Newport Sedan built in the USA. It in recent years had a nut & bolt restoration at simply vast cost with a stunning Henley Roadster body built from aluminium & fitted to the chassis. Bills for over £180k for engine & brake work alone from noted specialists Frank Dale & Stepsons and also Alpine Eagle come with the car. On top of this was the cost of the body & the cost of the original car.

The car is resplendent in brand new dark red paintwork along with a fresh maroon leather interior. We are in the process of gently running the engine in for a few hundred miles prior to an oil change & torquing down the head.

Perfection as always needs but few words. This is very rare being a left hand drive example from the factory & is in wonderful driving order with as new mechanicals & body.

The car is in stock with us & may be viewed by prior appointment.
