VEHICLE DETAILS

ADDITIONAL INFORMATION / SERVICE HISTORY

1913 Renault type DM Tourer

Chassis Number 1062

Registration. Not registered but Swiss taxes paid.

Imported from a French barn find & fully restored including a complete mechanical rebuild. This Edwardian Renault has the 4 cylinder 2.2 litre engine with three sequential gears plus reverse.

This car is located in Romanshorn Switzerland where it may be viewed by appointment. We will be visiting & photographing it fully in June at which time we will have more information on the car. It is however in great running condition starting easily & ready for extended use.

The body is an open tourer with comfortable seating for 5 people. A Large black hood is easily erected for inclement weather. The car is resplendent in red & has the traditional Renault coal scuttle bonnet with radiator mounted amidships.
