Freshly imported from Japan and is registered in UK. This is no ordinary car - It still looks new , even underneath - it comes from Japan & is Jaguar's flagship top of the range model with upgraded everything including the quality of the leather.

This is a toatally unmarked one owner from new Ex Japanese company chairmans car. It has covered a scant 44,000 miles from new. The car comes with both keys & the last service stamp from a Jaguar main dealer in Japan is dated 2025 & done at 41,000 Miles.

The car when new was ordered with almost every conceivable extra including sunroof & wood steering wheel etc etc. Exterior is Topaz Gold metallic with Ivory Leather piped in dark brown to the interior all in pristine like new order.

You really have to see this car to appreciate just how special it is. The car has been garaged its entire life & seen very very sparing use. We will be rephotographing the car upon arrival if not sold before it arrives.

The Super V8 cars are rare, extremely fast & almost impossible to find in this condition.
