VEHICLE DETAILS

ADDITIONAL INFORMATION / SERVICE HISTORY

1937 Rolls Royce 25/30 Windovers 3 position drophead

Registration Number: XTN344

Under the current ownership for 25 years & swedish registered with EEC taxes paid.

The current owner discovered it in a museum in the USA & repatriated it & has enjoyed extensive if sparing use over the past two & a half decades with the car residing at his third home in Sweden for sumer use only.

This car carries rare 3 position drophead coachwork by Windovers whom made just three examples in this configuration. The car is set up for continental touring with a huge boot & also luggage space behind the front seats. It is however a 4 seat car with occasional seats that fold out of the rear of the car.

During the current decades long ownership the car has had an engine rebuild with a rebore, new pistons & valves etc so consequently it runs beautifully. It is equipped with overdrive so is very long legged & at home in modern motorway traffic. A spin off modern oli filter is also in situ.

The car is lightly patinated with original feeling brown leather to the interior.
Paintwork is in good order in two tone mid & dark brown.

The car is located about 100 miles north of Gothenburg in Sweden where it may be viewed by appointment. We have known about this car for 15 years or so when we first met the owners dockside in it at the Harwich ferry when both of us rolled up in similar Vintage Rolls Royces. The owner has an assortment of other Rolls Royce cars both in Sweden & Guernsey.
