Price: £280,000

### VEHICLE DETAILS

#### ADDITIONAL INFORMATION / SERVICE HISTORY

1955 ASTON MARTIN DB2/4

Chassis Number: LML865

Registration: PXR107

Car was purchased in 2016 as a "barn find" . it had been sitting under a tarpaulin for over 40years in a heated workshop!

Car subsequently dismantled and subject to a complete nut & bolt restoration.

Majority of parts have been retained and overhauled. Only those parts beyond repair have been replaced and those have been original or remanufactured parts courtesy of marque specialist Aston Service Dorset.

Car was repainted in its original colour of Moonbeam Grey and its interior redone in leather to original specification.

A matching numbers car, its original engine having been fully & painstakingly rebuilt to new zero time specification.

Transmission and braking systems overhauled.

Complete with period correct tools and jack.

The odometer shows 21020 miles , believed to be correct.

This car has been kept as part of a private collection in a controlled environment since restoration where it has been sparingly used.

The full set of restoration pictures give a good idea of the time labor & expense of this fastidious restoration & are well worth viewing in their entirety.
